

Dear Friends and colleagues,

On behalf of the State General Laboratory, the Cyprus Police as well as the city of Paphos we are very pleased to invite you to the 17th Annual meeting of the ENFSI Expert Working Group Firearms GSR from 9th to the 11th of November 2010.

The meeting is open to members of ENFSI-institutes and associated members of the Expert Working Group. In addition, guests may be invited at the discretion of the EWG Chair/Steering Committee. The chair and the Steering Committee encourage all members and guests to contribute to the success of the meeting by giving presentations or preparing posters on current firearms and GSR topics.

The EWG Firearms/GSR also invites companies to join the meeting as exhibitors.

As in previous meeting on the 12th of November 2010, two workshops are going to be held in addition to the program, and these will be one for firearms and one for GSR topics for a limited number of participants.

We are confident that the meeting and workshops will further strengthen your International and Interdisciplinary cooperation and will provide opportunities for you to exchange experiences, present and debate new approaches and topics with experts from not only Europe but hopefully from across the globe. Last but by no means the least, you will have an excellent opportunity to meet your international colleagues in a friendly atmosphere.

It will therefore give us a great pleasure and honor to welcome you to Cyprus in November 2010.

Congress Site

The venue will be held in Paphos which is one of the most historical cities in the Republic of Cyprus. Paphos, with its picturesque harbour and medieval fort, combines a cosmopolitan holiday resort, spectacular countryside and impressive historical sites. The region offers the possibility of enjoying both sea and mountains, as well as getting a taste of the island's culture with its many archaeological sites.

Paphos is located on the southwest coast of the island and is sheltered from the north by the Troodos mountains. It has a temperate climate, which is considered among the healthiest in the Mediterranean. The warmth of the climate is reflected in the warm hospitality of the people which you yourselves will confirm upon arrival to Paphos.

The meeting will be held at Annabelle Hotel. Annabelle is a five star luxury hotel resort, situated on the Mediterranean shores of Paphos. It is very centrally located, being the closest hotel in Paphos to the old fishing harbour and castle, as well as the archeological sites of Paphos. It offers discreet, understated elegance and stylish accommodation.

Situated in six acres of lush tropical gardens, cascading waterfalls, and free-form pools, the family-owned, five star hotel has 218 rooms and suites, all luxuriously furnished and each with its own private terrace or balcony.

Registration for the meeting and Hotel Reservations

Registration forms for the Annual meeting 2010 will be available very soon. The conference fee will be approximately 320 Euros and will include the admission to the scientific sessions, conference bag, coffee breaks, welcome dinners, lunches, Gala dinner, sightseeing, etc.

Workshop fee will be approximately 50 Euros.

The hotel booking can be confirmed using the registration form since we have reserved rooms at the hotel with the special price of **100 Euros per night per room. All the rooms have double bed or twin beds and can accommodate one or two persons with the same price** (please specify on the registration form if you need two twin beds or one double).
